## **MENTORSHIP PROGRAM**

**The National Conference of Black Lawyers (NCBL)** will perpetuate and strengthen its history of fearless and vigorous advocacy by encouraging new lawyers, law students and community activists to join us in the fight against all forms of injustices and to do so within an environment of sharing experiences, wisdom, and strategies to ensure the outcome of the relationships will benefit all parties.

**NCBL** will increase its involvement at law schools through speaking engagements, conferences, town hall meetings, and relevant legal publications, and will use communication strategies through modern technology to bring new and experienced lawyers together via webinars, videos, YouTube and other forms of electronic media to maintain a strong force of NCBL advocates.

**NCBL** will gather valuable perspectives from younger members and will provide support and instill confidence in the mentees so that they are involved in leadership roles in the organization. Mentees will partner with seasoned NCBL lawyers to hone skills in their selected field.
